PRODUCTION COMPANY

- a_BAHN is a distinctive production company with unique experience in impact producing and outreach. The company is dedicated to supporting the creation of content that is both artistic and accurate and that engages an audience in response, bringing together the traditional worlds of film and television and new media. Our projects are built around the passion of the author and seek to weave together documentary narrative and the investigation of ideas in visually compelling ways. Whether in the areas of music, law, fashion, or social issues, our goal is to infuse the approach to these subjects with a sense of the civic dimension. This commitment is our DNA as we see media as a tool for change and social cohesion. We seek out strong editorial lines, not polemics, that are built on sound research. Key word: bold.
- a_BAHN works with networks such as ARTE, SWR, and France Télévisions. We are proud to be able to count on the support of Film Fund Luxembourg, Creative Europe MEDIA or the CNC, as well as international and regional funds such as Pictanovo and Wallimage. Our projects are regularly selected for and awarded by international competitions and festivals.

An artistic hybrid documentary, ZERO IMPUNITY is the centerpiece of an ambitious, global transmedia project which combines investigative journalism with a wake-up call to action. For centuries, victims of heinous sexual war crimes have experienced the horrific abuse and its devastating consequences, yet very few have had the courage or the support to break the centuries-old silence and speak up. ZERO IMPUNITY offers a voice to victims in countries across the globe, including Syria and Ukraine, as well as on the African continent and in the USA.

Since 2009 CGLUX is based in Luxembourg and offers a wide range of creative services in animation, either in 2D or 3D and in special effects. It is our goal to maintain the value aspect of images while establishing an efficient workflow.

We have developed our own working process for rendering in order to simplify the integration of 3D characters into 2D painted backgrounds and to keep the workflow harmonious and seamless. This new workflow is being used for three feature films: ICARUS, a co-production by Iris Group, APPLE PIE LULLABY, a co-production by Paul Thiltges Distributions and THE PRINCE OF THE CITY OF SAND, another co-production by Iris Group.

Our compositing techniques allow us to get close to what traditional 2D animation usually looks like, but also gives us the possibility to use well known 2D animation techniques to directly paint lights and shadows on top of animated characters while maintaining the feeling of being hand-made.

In the meantime PAUL THILTGES DISTRIBUTIONS also commits to animated fiction, co-producing stories such as KIRIKOU & THE SORCERESS by Michael Ocelot, Ari Foleman's THE CONGRESS or THE BLUE ARROW and A GREYHOUND OF A GIRL by Enzo D'Alò.

These projects have, among others, earned PAUL THILTGES DISTRIBUTIONS numerous nominations and awards at prestigious film festivals around the world like Locarno, Cannes, San Francisco or Annecy, consolidating its solid reputation in the international film industry.

PRODUCTION COMPANY

RADAR is a production company as well as a creative studio. We are active in the advertising field, offering works from concept to post-production and focusing on storytelling.

We also develop numerous fiction projects in-house, ranging from TV series to feature films, using animation as well as live-action.

We focus on strong stories, surprising visuals and world-building, with an emphasis on the "cinema fantastique" genre. This allows us to create imaginative and strong IPs that can be adapted to different formats and platforms.

Being a creative studio, we also love to incorporate technical challenges into our projects, trying to use as many practical effects on our projects, be they animated or live-action.

RADAR is a haven for creativity and imagination where we try to build amazing worlds, tell exciting stories and dazzle our audience.

MAUS KETTI

IN DEVELOPMENT

MAUS KETTI (TV series - 48 episodes)

Based on a Luxembourgish literary classic, MAUS KETTI tells the adventures of a little country mouse that moves to the big city to live with her posh cousin. In this fabled world where animals are living like humans, they will discover the values of curiosity, friendship and tolerance (development illustration by Sean McCormack).

IN PRODUCTION

GLOW (short film)

GLOW tells the story of a little creature trapped in a dying world, until the day it meets a living figment of imagination which introduces our hero to the power of dreams... This project merges a heartwarming story with exceptional visuals. Using a mix of old techniques in a new way, we are working with live miniature sets combined with hand-drawn 2D-animated characters.

Its aim is to produce and co-produce innovative, entertaining and enriching programs drawing on national and European know-how and creativity.

IN DEVELOPMENT

LE FOND DU BOCAL based on the comic book by Nicolas Poupon. The series depicts an aquarium of fish questioning their reason for being and the meaning of life in general. The ironic meets the absurd. The series wants to be biased to this and therefore reserved to an essentially young adult public. Every episode is made up of short autonomous stories that each pose a different problem within each aquarium.

LE FOND DU BOCAL

IN DEVELOPMENT

WILFRED – Gurlic, a planet inhabited by small cynical creatures, decides to continue its Universe Colonization Policy. Next target: Earth! A computer bug sends Wilfred, an alien in need of recognition, by mistake to find the earthmen's weakness. But his mission rapidly flops when he falls into the hands of a mute boy who adopts him.

IN PRODUCTION

CRACKÉ WACKY ISLAND co-produced with Squeeze Productions. Each episode stars our hero Ed and his unhatched kids Junior & The Seven Eggs. The other distinct, eccentric, wacky character duos/trios on the island are Percy & Mimi, Batty & Napnap, Chef Crococook VS Sous-Chef and the Hedgehogs. Each of these characters has a funny, crazy, loony, off-beat personality... but they are all motivated by relatable and heartfelt objectives. They all share the crazy world of Wacky Island, where chaos and zaniness reign!

QUIRKISTADOR (BARABABOR)

Directed by Laurent Witz

Produced by ZEILT PRODUCTIONS LUXEMBOURG - Laurent Witz WATT frame (FR)

This first season consisting of 52 episodes of 2 minutes without dialogue spotlights a bunch of quirky conquistadors who face all kinds of crazy situations and surprising obstacles miserably ruining their dreams of gold. Our heroes have their very own technique to go on an adventure. For this lame-duck crew, organization and discipline seem to be particularly abstract concepts. The way they use their equipment and explore the islands is always unexpected. Crew members including the captain, do not think about the consequences of their actions when making a decision.

Directed by Sarah Sutter

Produced by ZEILT PRODUCTIONS LUXEMBOURG - Laurent Witz WATT frame (FR)

Klaus and Mish, two small aliens no taller than an apple, are sent to Earth to prepare the ground for an invasion.

What could be more impressive than a historic, cultural or natural site of great wealth to establish headquarters?

They will visit the sites and monuments but, because of their bad luck and clumsiness, they will face all kinds of difficulties that will make them travel from one place to another, while sharing with the audience valuable information on the history of these sites.

SOUND AND POST-PRODUCTION COMPANY

Luxemburg is home to some of the greatest animation studios. But with great animation, you need great sound and a great picture. SOUNDTASTIC, established in Luxembourg since 2011, offers audio post-production services. Our field of expertise ranges from editing to sound effects, sound design, music creation, mixing, voice creation and dubbing in French, Luxembourgish and German. And you know what? We now have a new department: PICTASTIC! Dedicated to... you guessed it: Picture. Equipped with all the technological wonders needed to get the job done and countless Teras of storage on RAIDs (Well it is a little bit exaggerated. I counted and we have about 200 Teras), we offer services such as editing (Final Cut X, Premiere, Media Composer, DaVinci and gazillions of plug-ins... well, maybe a little less than that), movie color grading on a 4 meters base cinema screen, and DCPs. Lately we have been working on ZERO IMPUNITY by a_BAHN and LET'S MAKE IT HAPPEN, from Oscar winning animation studio ZEILT. We are now working on CALIFORNIA DREAMING by SAMSA FILM.

The programme BTS DESSIN D'ANIMATION was created back in 1990 and its implementation took place in close co-operation with "Les Gobelins, l'école de l'image" in Paris. Meanwhile, the programme has ripened enough to call upon experts from a varied range of studios in Europe. The BTS offers pedagogical programmes which enable every student to be taken into an animation studio after their studies and to work in all the different fields of animation. From September 2018 onwards, the school offers two training programmes focused on animation: 2 years of studies lead to the "Brevet de Technicien Supérieur" (120 ECTS); 3 years of studies in collaboration with the University of Luxembourg lead to the "Bachelor en Dessin d'animation" (180 ECTS).
