Feature film in competition "Contrechamp"

An animation-documentary hybrid film, as part of a global transmedia project combining investigative journalism and activism. Zero Impunity aims at ending the seemingly total impunity for the use of sexual violence in current armed conflicts by offering a voice to inspiring victims in countries such as Syria & Ukraine, but also France or USA. Hundreds of victims experience abuse of power and sexual violence, but impunity remains total and few have the courage to break the silence. Sexual assault has no color, nor flags. MELUSINE PRODUCTIONS

Screening event

An old prince fails on an unknown shore. Wounded and lost, he is found by young Tom and collected by his parents – two researchers forced into exile because they dared to believe in the existence of other peoples of apes... The prince, guided by his young friend Tom, discovers with enthusiasm and fascination this society yet frozen and sclerotic. Meanwhile, the couple of researchers dream to convince the Academy of the veracity of their previously rejected thesis... Conceived as a narrative, close to the fable, THE PRINCE'S VOYAGE is a sort of travel diary in a world that is a little familiar to us, but very surprising for this old ape.
